

Port of Esbjerg is recruiting

# PORT RISK AND SAFETY OFFICER

Port of Esbjerg is seeking a Port Risk and Safety Officer (PRSO) to contribute to the systematic identification, mitigation, and prevention of a wide range of risks that may threaten human life, property, or the environment.

The PRSO is expected to carry out analyses based on a thorough review of operational and regulatory data. The role is defined by a proactive mandate to identify and eliminate vulnerabilities. Accordingly, the tasks are varied and include both operational and administrative duties.

The position is based at Port of Esbjerg, with a dedicated office space. Key responsibilities include:

- Establishing inspection and monitoring programmes, and ensuring their proper execution
- Overseeing cyber security measures
- Investigating unwanted incidents
- Collaborating with relevant authorities
- Developing risk policies and contingency plans

## Qualifications:

We are looking for an independent and service-oriented individual who can work across a broad stakeholder landscape—from internal staff and port-based companies to public authorities. The ideal candidate is experienced in conducting research and preparing analytical reports.

In addition, the following qualifications are required:

- Preferably relevant experience from the armed forces or police
- Familiarity with surveillance systems and AI technologies
- Extensive experience in IT security and cyber risk management
- Must be eligible for security clearance

## We offer:

- The opportunity to shape the role and its development
- A dynamic and engaging workday
- Supportive colleagues and a positive working environment
- Attractive employee benefits
- Salary according to collective agreement

Applications marked “PRSO” must be submitted no later than Friday, 26 September at 12:00 noon to [job@portesbjerg.dk](mailto:job@portesbjerg.dk).

Interviews will be conducted on an ongoing basis.

Expected start date: 1 December 2025

If you have any questions, please feel free to contact CEO Dennis Jul Pedersen directly at +45 2948 4029.

---

Port of Esbjerg is one of Denmark's leading commercial ports, with more than 5,000 vessel calls annually. The port is a recognised player among both domestic and international stakeholders and is continuously working to develop its infrastructure and organisation.

Approximately 10,000 people are employed across more than 200 companies located at the port, with around 50 staff members employed directly by Port of Esbjerg.

The working culture is informal and straightforward. We are development-oriented and curious about how we can improve and streamline operations.

We take a professional approach to our work and understand how to operate within a business environment that attracts attention from industry players and stakeholders both in Denmark and abroad.
