

PROJECT ASSISTANT

Port Esbjerg is looking for a curious and motivated Project Assistant(s) to work with ongoing and upcoming projects related to the development of the Port, Energy Infrastructure and alike.

The position is well suited to a recent graduate or someone at the beginning of their career who wants hands-on experience with projects in an international port environment.

You will work with:

- Supporting the development and implementation of projects.
- Following project activities and progress.
- Carrying out research and analysis for ongoing and new projects.
- Working with project data and contributing to business cases and assessments.
- Supporting the development of new project ideas and opportunities.
- Working with companies, universities and other project partners.
- Gradually taking responsibility for specific project activities.

Qualifications:

- You have recently completed a relevant master's degree or have a few years of relevant experience.

- You are curious, analytical and willing to learn.
- You are structured and take responsibility for your work.
- You are comfortable working with information, data and Excel.
- You can work independently and together with others.
- You communicate well in English. Danish is an advantage.
- You are comfortable working with different companies, organisations and professional backgrounds.

Previous experience from a student job, internship or first employment is an advantage

Practical information:

Applications must be sent to job@portesbjerg.dk with the subject "Project assistant".

The position is full-time with a weekly working time of 37 hours.

We will review applications on an ongoing basis, and the position will be closed as soon as suitable candidate(s) are identified.

Expected starting date: 1.11.2026 or as agreed.

If you have any questions, please contact CEO Dennis Jul Pedersen djp@portesbjerg.dk

Esbjerg Port is one of Denmark's leading commercial ports, with more than 5,000 ship calls annually. Esbjerg Port is a recognized player among both domestic and international stakeholders and continually works on developing the port and the organization.

The port hosts approximately 10,000 employees across more than 200 different companies, with around 50 people employed directly by Esbjerg Port.

The culture is informal and direct, and we are all development-oriented and curious about optimizing and improving efficiency.

We are professional in our approach to work and understand how to navigate in a company with significant attention from the business community and other stakeholders in Denmark and abroad.
