Port Esbjerg accepts no
liability for any printing errors.

Applicable from: March 26th - 2022

1. INTRODUCTION

Port Esbjerg have a key location in context to Danish export for the agricultural and food industry and servicing the offshore energy markets. This depicts the Port, as an important node in the network, where the companies using the port jointly can evolve and prosper together with the possibilities this unique location provide.

The port is also located in vicinity of the Wadden Sea, which is on the largest unbroken system of intertidal sand and muds flats in the world. The Wadden Sea is on the UNESCO heritage list and this commits us to operate the port with outmost consideration to the environment. Conversely, the port is the working place for around 10.000 people and hence integral in the Energy Metropolis, which is the City of Esbjerg.

2 ARRIVAL PROCEDURE

At least 24 hours before arrival an “Arrival Notification” must be filled out:
www.portesbjerg.dk/en/maritime-info/arrival-notification

Call Port Esbjerg 2 hours before arrival Graadyb fairway buoy on VHF CH 12.
Call again when passing buoys 1 – 2 and 13 – 14.

Special attention if ship moored at “Atlantkaj” 709. Pass with slow speed.

3. DEPARTURE PROCEDURE

Call Port Esbjerg on VHF CH 12 fifteen (15) minutes before departure.

Call Port Esbjerg before departure and receive traffic information/instruction.
Call Port Esbjerg when passing buoys 13 – 14 and 1 -2.

Special attention if ship moored at “Atlantkaj” 709. Pass with slow speed.

4. PILOTAGE

Pilot boarding position, Esbjerg: 55° 24,6' N 08° 11,7' E

In case of rough weather, the pilot will board inside Buoy No. 7.

The distance from pilot boarding position to the port is abt. 10 nm.

Ordering Pilot:

Arrival:

- Ordering 24 hours by e-mail.
- Update 6 hours by e-mail, telephone or VHF.
- Confirm 2 hours by telephone or VHF.

Departure:

- Ordering 4 hours by e-mail.
- Confirm 1 hour by VHF or telephone.

Contact details:

- VHF channel 87
- +45 63 25 66 66
- danpilot@danpilot.dk

Link to ordering details:

<http://danpilot.dk/pilotage/how-to-order-pilotage/>

Compulsory pilotage

<http://danpilot.dk/pilotage/port-pilotage/rules-regulations/>

5. TOWAGE

Two tugs available. Additional tugs are available on request.

For ordering tugs contact:

Svitzer Operations Gothenburg:

segot.operations@svitzer.com

+46 31 10 97 10

Pilots tugboat recommendations:

Compulsory pilotage when using tug boats:

<http://danpilot.dk/pilotage/port-pilotage/rules-regulations/>

Pilots tugboat recommendations for Port Esbjerg:

- Following recommendations given under normal weather conditions, traffic situation and sufficient space in port.
- Applies to conventional ships with only one propeller and one rudder. See below special attentions to Car Carriers.
- Predicted winds: **0 - 11 m/s**.
- Car carriers, Ro/Ro vessels and other vessels with high superstructure or deck load only **0 - 5 m/s**.
- Local weather forecast: <https://www.dmi.dk/lokation/show/DK/2622447/Esbjerg/>
- In scheme: L = Length over all (LOA).

Arrival		Departure	
L = 80 - 125 meters	1 #*	L = 80 - 125 meters	1 #*
L = 125 - 225 meters	2 #*	L = 125 - 225 meters	2 #*
L > 225 meters	3 #*α	L > 225 meters	2 #*

#: If the ship has a good bow thruster, one tug can be omitted. A good bow thruster is at least 5% of DW - e.g. 20.000 DW x 0.05 = 1000 BHP. For Car Carriers a good bow thruster is at least 4 % of GT – e.g. 50.000 GT x 0,04 = 2000 BHP

*: For predicted weather forecasts with a wind speed of more than **11 / 5 m/s**, pls. contact pilot for advice.

α: 3 tugs can be replaced by 2 tugs, both of which must be of the ASD / Tractor / Voiht type with a minimum of 50 tons pull.

Legislation:

www.dma.dk/Vaekst/Rammevilkaar/Legislation/Orders/Order%20on%20the%20use%20of%20pilots.pdf
